Phone: +86 18610641599 (cell phone)

## Education

College of Pharmacy, University of Florida	Gainesville, Florida
• Ph.D Candidate, Pharmaceutical Outcomes & Policy	Since Aug.2020
School of Pharmaceutical Sciences, Peking University	Beijing, P.R.China.
• M.S., Pharmaceutics	Sep.2016-Jul.2018
• B.S., Pharmacy	Sep.2012-Jul.2016

## Working Experience

**Johnson & Johnson, Janssen China Research & Development, Department of Clinical Operation**  
*Site Manager* Shanghai Jul.2018-Jun.2019

- Initiated clinical research of Esketamine (for depression) and Abiraterone (for prostate cancer) in several local hospitals, oversaw the process of research and ensured that the entire procedure goes smoothly, monitored the research procedure and guaranteed that researchers followed the proper clinical trial protocol to obtain data, verified the accuracy and integrity of the clinical data, ensured clinical research processes were performed in line with regulations of the FDA and GCP (Good Clinical Practice), gave protocol training for the investigators.

**Taikang Life Insurance co., Ltd,**

*Intern* Beijing Nov.2017-Jan.2018

- Assisted the product manager to collect and analyze data of health insurances; collected and sorted out the professional information and evidence for different diseases such as cancer, diabetes, hypertension and other chronic diseases.

## Research Experience

**The Diminishing Cost-Effectiveness of the Newer Glucose-lowering Drug Classes in the United States: 2010-2018**

Supervisor: Prof. Hui Shao; May.2020-Sep.2020

- Acquired, analyzed and interpreted the data.
- Drafted the manuscript and conducted critical revision of the manuscript.

**siRNA-loaded lanthanum phosphate nanoparticles for treatment of colorectal cancer**

Supervisor: Prof. Jian-Cheng Wang; Dec.2016-May.2018

- Prepared and optimized siRNA-loaded lanthanum phosphate nanoparticles, clarified the delivery efficiency, internalization pathways, intracellular trafficking routes of the nanoparticles.
- Evaluated *in vivo* performance in chemical-induced and transgenic orthotopic colon tumor-bearing mice, explored the potential pharmacological effects of lanthanum ions.

**Core-shell calcium phosphate nanoparticle delivering siRNA to treat cervical cancer**

Supervisor: Prof. Jian-Cheng Wang. Co-researcher: Yi Yan Aug.2016-Oct.2017

- Developed siRNA-loaded calcium phosphate nanoparticles and assessed cellular uptake, cytotoxicity, intracellular distribution, endosomal escape and gene silencing efficacy *in vitro*.
- Evaluated the *in vivo* performance in tumor-bearing nude mice.

### The influence of preparing methods on the effect of PCL-R<sub>15</sub> / siRNA nanoparticles

Supervisor: Prof. Jian-Cheng Wang. Co-researcher: Wei-Zhong Liu Aug.2015-May.2017

- Prepared PCL-R<sub>15</sub>(Polycaprolactone-Arginine<sub>15</sub>)/siRNA nanoparticles by different methods, compared *in vitro* effects of PCL-R<sub>15</sub>/siRNA nanoparticles prepared by different methods.

### Investigation and analysis of the tendency to continue to pursue postgraduate education and the current situation of clinical pharmacy undergraduates

Supervisor: Prof. Hong Shao; Co-researcher: Xun Zhao, Chun Liu Mar.2014-May.2015

- Designed questionnaires, contacted clinical pharmacy undergraduates from four different universities over the country and then distributed questionnaires to them, conducted on-site survey for students in Capital Medical University
- Recorded data with EpiData, analyzed the data by SPSS and then wrote a research paper.

### Publications

### Teaching Experience

Teaching assistant in *Pharmaceutical Experiment* Spring 2016

- Assisted in experiment preparation and guided students; Graded experiment report.

Teaching assistant in *Pharmacotherapeutics* Fall 2017

- Prepared teaching instruction materials; Assisted in lectures; Graded assignments and tests.

### Selected Honors

- National Scholarship (sponsored by the Ministry of Education of the People's Republic of China, awarded to top 0.2% of all undergraduate students throughout the country); Nov.2015
- Pacemaker to Merit Students in Peking University (1% of the school) Nov.2015
- ShuRen Scholarship (top 3% of the school); Oct.2016
- Merit Student of Peking University (5% of the school) Dec.2016
- The First Prize of the National Academic Scholarship Dec.2017
- National Scholarship (awarded to 5% of graduate students in the department) Nov.2017

## **Techniques and Skills**

---

Experienced in chemistry synthesizing and skilled in biological assessment; Familiar with C++, Software R, SQL , Photoshop, Adobe Illustrator, Microsoft office (Word, Excel, PowerPoint)

## **Other Activities**

---

- Volunteer in Peking University Third Hospital. Provided assistance in checking medicine and examination to patients. *2012-2014*
  - Director of Arts Department in Student Union of the College. *2014-2015*
  - Volunteer in "2015 Survey on Popular Awareness of Safe Drug Usage" *Aug. 2015*
- 
-
